

Amor is inspiration

Anolis Inspiration

Anolis is a leading LED lighting brand specified by architects and lighting, visual and interior designers worldwide.

Anolis – Latin for ‘chameleon’ – offers a dynamic, fine quality product range that opens a myriad of imaginative horizons. It provides creative and environmentally sustainable solutions for all types of indoor and outdoor spaces, places, objects, structures and built environments.

New perceptions and greater understanding of how mood and colour-changing lighting can influence an environment – from work, private or public spaces, boardrooms to living rooms, clubs, bars and restaurants to the exteriors of impressive buildings or in contributing to contemporary art works - has stimulated massive interest in LED lighting.

Anolis is at the forefront of developing exciting new technologies to meet these demands and challenges.

Simultaneous concerns for providing low-energy answers to an increasingly “green” conscious world are at the top of the Anolis agenda.

Anolis is designed and manufactured in Europe to the highest specifications using the best available and most up-to-date components, providing quality-engineered, precision manufactured cutting-edge LED lighting products.

College Michel-de-Swaen | Dunkerque, France

College Michel-de-Swaen in Dunkerque is housed in a Haute Qualité Environnementale building that has been specially designed to contribute to sustainable development in construction. Inside the atrium a winter garden is illuminated with 10 Anolis ArcSource Outdoor 36 fixtures, chosen for their low energy consumption and environmental qualities as well as their aesthetically pleasing effects.

Woodchester Mansion | Stroud, The United Kingdom

Lighting designer Andy Web utilised Anolis LED fixtures in a ghost-busting lighting scheme for a special production of "Goth", staged at Woodchester Mansion near Nympsfield, Stroud, Gloucestershire. The house provided a perfect, hugely atmospheric site specific location for the show and lighting was an absolutely essential component of the performance, almost taking an acting role as the drama unfolded.
